Each portrait includes a digital version in the same size.

PRODUCT AND ORDERING FAQs

- Q. Do I need to choose which products I want before the shoot?
A. No, the final purchase decisions are made after you've seen your images. However, knowing beforehand which products you're drawn to will help me to create exactly what you want.
- Q. How many images will I be able to choose from?
A. At least 25 images from your shoot will be presented to you.
- Q. Is there a minimum purchase requirement?
A. No. The idea is that I take images so incredibly gorgeous that you want to buy them. You only buy the images you love, so what you decide to spend is up to you.
- Q. Will my portraits be "Photoshopped"?
A. Some retouching will be provided for the images you order.
- Q. Can I get digital files of the images?
A. Each image you purchase will also include its high-resolution digital file which can be printed up to the same size you purchase.
- Q. Does my order include the copyrights?
A. You have print rights for personal use of all your purchased images. This means you can print copies of your portraits, but do not have the right to sell or publish them without permission.
- Q. How do I pay?
A. We accept cash, cheques, bank transfers, credit and debit cards including Visa or Mastercard.
- Q. When will I receive my order?
A. Turnaround is usually 4-5 weeks after payment has been made in full.

Prices as of May 2021
